

Synpulse is an internationally established management consulting company with branches in Switzerland, Germany, in the USA, Singapore, Hong Kong, United Kingdom, Australia and in the Philippines. We are a valued partner to many of the world's largest international financial services and insurance firms. We support our clients at all project management stages from the development of strategies and operational frameworks to the technical implementation and handover. Our expertise in business and technology combined with our methodical approach enable us to create sustainable added value for our client's business.

We are looking for consulting professionals with solid work experience in the financial services industry to join our team which will work on projects throughout Europe as

## Core Banking Specialist (Senior Consultant/Manager)

You will have the opportunity to:

- Lead engagement teams and be actively involved all along the value chain of project management and the typical core banking lifecycle, from the analysis to the go-live phases.
- Support the package selection process, define Target Operating Models and manage whole lifecycle of the core banking implementation
- Lead or contribute to large transformation projects, in terms of program / project management, architecture and target operating model design, business analysis or test management
- Play a key role in interactions with clients, other advisors or counterparties
- Prepare tenders and proposals and build your eminence internally at Synpulse as well as externally towards the Core Banking and customer community
- Be an active member promoting the national and international extension strategy of Synpulse
- Manage a diverse team of talented consultants, investing in the development of staff and coaching them to their highest potential

We are expecting you to have:

- Hold a master's degree in finance or IT
- Have at least 5 years' professional experience within the financial sector or a consulting firm
- Have project management skills with experience in implementing banking systems such as: Avaloq, Temenos T24, Triple A Plus, etc.
- Have a deep understanding of banking requirements and processes, specifically in the Private Wealth Management space
- Show strong ability to analyse complex problems and think in technical and business terms (gather requirements, write analysis documents, prepare testing & migration strategies, produce test scripts)
- Knowledge of industry best practices regarding digitalization and automation of banking services
- Excellent written/verbal communication skills with an emphasis on client service and presentation
- Entrepreneurial spirit and team leadership skills and strong time management and organizational skills
- Ability and willingness to travel up to 80% of the time
- Knowledge of risk management, compliance and regulations is a plus
- Be fluent in English; French or/and German is considered an asset, any other European languages is a plus
- EU citizenship or an EU passport is considered an asset

We look forward to getting to know you. For information on getting started with Synpulse, visit our website.
