

Synpulse is an internationally established management consulting company with branches in Europe, in Asia Pacific and in the United States, and is a valued partner to many of the world's largest international financial services firms. Synpulse has supported its clients in all stages of project management from the development of strategies and operational frameworks through technical implementation and handover. Its expertise in business and technology, combined with the methodic approach, enables it to create sustainable added value for its client's business.

Synpulse is looking for a driven and passionate candidate for the position of

Java Software Engineer

In this role, you can help shape the Synpulse software development competencies in Philippines become part of a new success story. The job offers a wider range of challenging tasks in a dynamic and international working environment.

This position is based in BGC Taguig, Philippines.

Responsibilities:

- Software development, solution design, and testing of internet banking and mobile banking systems
- Implementation of new and maintenance of existing functionality
- Integration with other third-party application and core banking systems
- Development based on guidelines and standards
- Ensure that deliverables are within the work effort estimate, cost and with quality
- Close collaboration with stakeholders to ensure fit-for-purpose end-to-end functionality
- Work closely with team members and provide active contribution to build up the new team
- Participate in end to end project lifecycle

Requirements:

- Degree Holder in Computer Science or related fields
- Minimum 3 years of experience in:
 - Object oriented programming
 - Software Development in Java or C#
 - Relational database such as Oracle, MS SQL or similar
 - Design specifications and technical documentation
- Minimum 1 year of experience in:
 - Web oriented technologies and frameworks such as HTML5, CSS3, jQuery, Angular, ReactJS, JSON
- Analytical, structured, and efficient way of working
- Excellent spoken and written English
- Entrepreneurial spirit
- Available shortly!

Are you motivated to contribute to a new success story, the build-up of a development center for an international company with a strong corporate culture? Are you convinced that team work goes above and beyond individuals, and willing to go the extra mile?

We will offer you the possibility to grow in your career and take on responsibility quickly. Your personality, skills and talent are a welcome extension to the team at Synpulse.

Kindly submit the following documents along with your application:
